

We, the undersigned, strongly support the efforts of striking graduate student workers at the University of California at Santa Cruz to achieve a Cost of Living Adjustment (COLA). Living and working in one of the most expensive cities in the country without such an increase is clearly impossible. As at universities throughout the country, these graduate student workers do irreplaceable work; this needs to be acknowledged by UCSC through such a COLA increase.

We have watched with growing alarm and anger as police officers in full riot gear have surrounded, arrested, and in some cases injured striking workers and their student and faculty supporters. This is on top of implicit and explicit threats made against strikers and their supporters, including disciplinary actions and loss of employment. The graduate student workers out on strike are our colleagues. We will not stand by and watch them being treated this way.

We stand in solidarity with our colleagues who are out on strike. We demand an end to all intimidation, threats, retaliation, and violence against them. And we demand that the university immediately take steps to work in good faith toward a meaningful and swift resolution of the just demands of graduate student workers at UCSC. We expect to hear from you accordingly.

Sincerely,

The Undersigned
